Create an impact with a variety of foil finishes

100% REHAU quality

New windows and doors are an investment in the future, which is why we're offering you the best quality, no matter what colour you choose. All foils are thoroughly analysed and subjected to long-term tests and exposed to the highest stresses. .

A colour for all

A rich spectrum of colour options present you with a range to suit any home. From the traditional and highly textured Turner Oak, to the modern Anthracite Grey, you will find the perfect match for your home.

- Low-maintenance surface
- Innovative design and on-trend colours
- Weatherproof and UV-stable

1 The PVC foil has a two-layer structure. The base layer is solid-coloured or printed, while the transparent top PMMA layer protects colours and decorative designs from fading due to UV radiation or other weather influences.

2 REHAU's foil laminate designs are pre-treated with adhesive and applied to the window profile with a special procedure that firmly and permanently bonds them to the profile.

Contemporary Collection

Black Brown
